Following is a set of web usage logs from an organization. Assume the following rules.

a. The time heuristic h1 for a session duration = 30 minutes.

b. The time heuristic h2 for the average duration for the user visit of a page = 1 minute.

c. Include a page in a session if the page that refers is in that session.

d. During a session, the IP address, browser and OS is the same.

You need to printout a table containing session number, IP address, session start time and session end time.

Time	IP	URL	Ref	Agent
0:01	1.2.3.4	A	-	IE5;Win2k
0:09	1.2.3.4	B	A	IE5;Win2k
0:10	2.3.4.5	C	-	IE4;Win98
0:12	2.3.4.5	B	C	IE4;Win98
0:15	2.3.4.5	E	C	IE4;Win98
